### **DETAILED ACTION**

## Response to Amendment

1. This action is in response to the amendment mailed June 09, 2005.

Applicant has filed a terminal disclaimer of prior Patent No. 6,872,446. The terminal disclaimer filed on June 09, 2005, disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of prior Patent No. 6,872,446 has been reviewed and is accepted. Claims 1 and 3-16 are pending.

#### New Matter - 35 U.S.C. 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1 and 3-16 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The phrases "single thermoplastic" and "mixtures thereof" are not supported by the specification. In the amendment filed October 1, 2004, Applicant claimed these limitations were supported by the specification on page 5, lines 20-24, however under further consideration, Examiner did not find support for these two limitations. Examiner suggests canceling the term "single" and phrase "and mixtures thereof" from instant claim 1.

## Response to Arguments

4. Rejection made under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is withdrawn due to Applicant canceling claim 19. The objection of claims 3,4 and 7 is withdrawn due to Applicant amending claims 3,4 and 7 to remove the term "crystalliziable".

The obviousness-type double patenting as being unpatentable over claims 1-18 of U.S. Patent No. U.S. 6,872,446 is withdrawn due to Applicant submitting a Terminal Disclaimer over Patent No. U.S. 6,872,446.
